

PBEL-003

DC 12V 5V Compact Rechargeable 8000mAh Mini UPS Power Bank

<https://www.pondesk.com/product/PBEL-003>

Features

Portable 8000mAh (lithium-ion battery pack) UPS power bank is a compact power source to run your systems and devices.

Sleek and lightweight; enough to fit in your pocket and any small area. The battery has dual power outputs; DC 12V 5.5mm barrel (max. 5A) and DC 5V USB (max. 2A) outputs with four LED indicators for charge level indication.

No additional parts required. Comes with everything you require to power any device, mini PC, routers, switches, tablet PC, notebook, speaker, projector, mobile phones, cameras etc.

Double-press the power button to turn on the power bank. Includes: UPS (DC 12V and DC 5V USB output), AC adapter and power cable.

Specifications

Model:	PBEL-003
Battery Type:	Rechargeable lithium-ion battery
Capacity:	8000mAh
Charging Input:	DC 12V-14V (1A-5A)
Charging Time:	2-3 hours
Output:	1: DC 12V/4.5A-5A (max.) Power: 55W-60W 2: USB 5V/2A (max.)
Temperature:	-10°C - 50°C
Humidity:	<=85%
Air Pressure:	85Kpa-110Kpa
Protections:	Overcharge Protection Overcurrent protection Over-Load Protection Short-Circuit Protection
Dimensions:	97mm x 60mm x 22 mm (L*W*H)
